

I am a frequent listener of the Airl radio station, 98.7 FM. Recently I found out that there is cause for concern, pertaining to the continuation of Airl. This news is nearly devastating. Ever since I began listening to this radio station, it has changed my life. It honestly does present me with something to look forward to each day and it is a reminder of what life is really about. Air 1 inspires me through its positive, innocent lyrics, modern music, and pure, non-derogatory DJs.

If Airl were to be taken off the air in our community, all of its listeners would either have to turn back to the negative influence of the typical modern music station, or listen to silence in its stead. I have seen so many lives turned around by simply hearing the message of Airl and so many people brought together that I can't imagine the effects of depriving the public of this prophetic station. Airl truly is the positive alternative it claims to be.

I share this attitude and belief with many others in my school as well as my community. If Airl were to be displaced by an LPFM broadcaster providing other programming, its morality message of hope, love, and all things virtuous would be stripped away from a world desperately needing to hear it. I pray for those who are in the position holding this responsibility. Please consider the ones who would be affected by this decision.

Thank you for your time and consideration.

Sincerely,

A Devoted Listener
